

## What do the Experts say (our Customers)

We would like to thank Colm, Mick and all at CMD Construction who worked on the building of our new home. We are absolutely delighted with it. We found CMD extremely professional throughout the build, very easy to work with and they kept us informed of what was happening at every stage. There was an excellent standard of workmanship from start to finish. I would have no hesitation in recommending CMD to anybody who is thinking of building, they helped us achieve our new home with the least amount of stress possible.

**Tom & Margaret Hennessy**

We engaged CMD Construction Ltd to demolish an old house and build a new one. From the early days when we first met them to get quotations, and the entire way through the construction process, we were consistently impressed by their professionalism and high standards. Their approach to the construction work was planned, always in control, and as a customer, you were always clear on what the current status was, and what the next steps needed to be. They were available to offer advice and ideas - but otherwise, they concentrated on delivering what we asked for, and did it to excellent and consistently high standards. The approach taken by CMD Construction was very good, and in addition to minimising disruption to our neighbours, they also kept the entire building site incredibly tidy throughout the process. We're delighted we selected them to build our house, and we'd be happy to recommend them to anyone looking for a builder in the future.

**Lawrence & Ethna Vesey**

It is with great pleasure that we write this letter of recommendation in support of CMD Construction Ltd. They are outstanding professionals whose excellent work merits recognition. CMD Construction exceeded the level of customer service/satisfaction we were expecting. We would like to thank both Colm and Mick, together with all the CMD team in the construction of our new family home. On a personal note, CMD Construction made our home building experience a pleasurable one, so thank you for a job well done! Both Craig and myself, would recommend CMD Construction Ltd for any potential building works.

**Craig and Ciara Ince**

When we approached several builders regarding quotes for our timber framed house, we found CMD Construction to have genuine interest in our plans and gave us a very competitive quote. In the planning stages they were very helpful in recommending internal layout and suggesting ideas we had not considered. As with any build, some challenges arose along the way, however these were dealt with efficiently, effectively and in a timely manner by both Colm and Mick. Colm and Mick were a pleasure to work with and the other men on site were hard working, pleasant and tidy. I would recommend CMD Construction without hesitation!

**David & Laura Starnes**

When choosing a builder to build your dream home there are a lot of considerations: costs, ability, flexibility etc. etc. After hearing some peoples horror stories about building, the stress involved, time delays, not being able to talk to their builder and other problems, we were delighted when we found Colm and Mick as they were easy to deal with, very professional, hard working and also reasonably priced at a time when the so called Celtic tiger had gotten to some builders heads. Any changes we wanted to make were handled without fuss. Any delays and mistakes on our side were worked around by the lads. Overall it was a very enjoyable and exciting experience and we now have a home we are very happy with. We have no hesitation recommending them.
